*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Comptroller

DATE: 17 July 1953

FROM : Deputy Comptroller

SUBJECT: Basic Intelligence Course (CS) No. 2 - Presentation by Mr. [REDACTED] 25X1A9a

25X1A9a

1. The undersigned attended lectures given by Comptroller representative [REDACTED] on 1, 2, and 8 July 1953.

2. Each lecture was for a duration of three hours. Mr. [REDACTED] 25X1A9a gave a very fine presentation, and the class appeared to be keenly interested in the various subjects discussed. The undersigned was able to make several suggestions for improvement of the content of the lectures; but as a whole the lectures were very complete and required very little revision.

3. It is believed that the subjects presented should be continued as a part of the BIC course, but it is also believed that it would be desirable for the Comptroller's Office to continue to present the material rather than subsequently have the Office of Training make the presentation. My reason for this recommendation is that many complex and technical questions are asked by the class which only an experienced Comptroller's Office representative could answer. It therefore appears that it will always be necessary for a Comptroller's Office representative to be present during the presentation of such material and that, since Mr. [REDACTED] 25X1A9a is so adept at lecturing, it would seem more practical for him to continue with the presentations as long as they are considered necessary.

4. It is also the opinion of the undersigned that a monitor should continue to be present through at least the next presentation since it was found that the class asks many questions which are too broad in scope for the lecturer to answer satisfactorily.

[REDACTED] X1A9a
